HOLD MASS MEETING

SUNDAY SCHOOL WORKERS GATHER AT FIRST M. E. YESTERDAY

GIVE ADDRESSES ON WORK

Efficiency in Teachers Is Urged at the Meeting Yesterday—Mrs. White Says "Talk Sunday School."

As an introduction to the great Children's Week which is being observed by all Protestant churches throughout the United States during this week, and which has as its object, the bringing of all children under 12 years of age into the Sabbath school, a mass meeting of the various Sunday school workers of Maryville was held yesterday afternoon at the First M. E. Church.

Rev. W. C. Ferguson, Superintendent of Schools J. M. McDonald, Prof. W. J. Osburn and Prof. H. P. Swinehart of the State Normal, and Mrs. L. E. White were among those who gave addresses. The meeting was in charge of Dr. S. A. Colie of the Presbyterian church.

In his address Prof. McDonald brot out the need for efficient teachers in the Sunday school as well as in the day school, and suggested that more care be exercised in the selection of the proper kind of instructors for the Sabbath school. "In the day school," said McDonald, the time devoted to the current education of the child is approximately 30 hours a week. In the Sunday school the teacher has about 30 minutes, and it is obvious that the instructor must be well acquainted with the subject at hand to impart the knowledge to the child."

Prof. Swinehart spoke along the same line and brought out that the education of the child along religious lines is as equally as important as the education he receives in the day school. He brought out that according to the law, the teaching of doctrinal religion is not permitted in the public schools, and that the child must be taught the Scriptures in the Sunday school.

Prof. Osburn advocated a more thorough understanding of the Scriptures by the Sunday school teacher, and suggested that "examinations" be held at frequent intervals to ascertain the knowledge of the instructors in the Sunday school. He spoke of the newer system of graded lessons in the Sunday school, and showed that by this method the child is given instruction along a connected line.

Mrs. White spoke on the "Purposes and Plans for the Children's week" and in her talk spoke of the prime object of the movement, "to place every child under 12 years of age in a Sunday School." She told of the value of propaganda in spreading the work of the Sunday School, and urged every teacher "to keep talking the Sunday School."

A visitation campaign is being put in by the various Sunday School workers today throughout the county, in which efforts are being made to visit the home of every child, and if the youngster is not a member of a Sunday School make efforts to place them in one.

Tomorrow evening a conference of all workers in Nodaway County Sunday Schools will be held at the First Baptist church and representatives from every Sunday School in the county are expected to be present. Miss Harriet Edna Beard, of St. Louis, state Superintendent of the Children's Division will deliver an address and important matter relative to the Sabbath School question will be discussed.

On Thursday night a pageant entitled "The Rights of the Child" will be given at the First Christian church.

A booth has been established in the Robinson building on Main street, and throughout the week all children in this city will be registered here in regard to Sunday School preference, and attendance. A souvenir is being given to each child who registers.

A marriage license was issued today to John Ketter of Conception and Anna Eiberger of Conception Junction.

Mr. and Mrs. M. L. Beattie were in St. Joseph Sunday to attend the funeral of Mrs. R. E. Townsend, who died last Friday.

"Money can beget money and its offspring can beget more."

"Always taking out of the meal tub and never putting in soon comes to the bottom."

"Beware of small expenses; a small leak will sink a great ship."

TRADE DOMESTIC DUTIES.

Santa Monica, Cal.—Mr. Husband, How would you like to make your wife's hat while she shingled the roof? Mrs. Wife, how would you like to wield a hammer and saw while your husband designed your gown?

Impossible? Not at all. Mr. and Mrs. E. H. Stringer of this city say it makes for domestic happiness. They have been married thirteen years and every time Mrs. Springer needs a new hat or gown Mr. Springer gets busy and designs and makes it.

And to make things even, Mrs. Springer recently shingled her house, using twenty-seven bundles of shingles, and painted the interior of the house. She is an expert with the saw and hammer, too.

"We find our unusual and opposite abilities a pleasure," said Mrs. Springer. "And perhaps there would not be so many divorces if other people were as agreeable," added Mr. Springer.

AFTER OVERSUBSCRIPTIONS

Communities Which Have Passed Loan Goal Urged to Continue Drive.

Washington, April 28.—Special efforts to obtain oversubscriptions from communities to counterbalance possible under-subscriptions from others will be made this week by Victory Loan committees at the request of the treasury.

After canvassing the financial situation throughout the country, national managers of the loan have decided that vicissitudes of the post-war re-adjustment period have reduced the ordinary ability of some communities to subscribe the same proportions as in previous loans. For this reason cities, towns and country communities which have not been adversely affected by the cessation of war activities were urged in messages sent today to all loan committees by the treasury to exceed their quota wherever possible.

LEAGUE OF NATIONS BEFORE CONFERENCE

DISCUSSION AS TO WHETHER IT WILL PREVENT FUTURE WAR

JAPS DEMAND EQUALITY

Italy Not Represented at Plenary Session—Pres. Wilson to Make an Address.

Paris, April 28.—Whether the league of nations plan as it is finally amended is acceptable to the nations of the world as a supreme weapon to prevent further war, was the chief problem confronting the plenary session of the peace conference when it assembled here this afternoon. Before the meeting opened the Japanese announced their intention of pressing the amendment to the preamble, declaring for the equality of the member states.

The Japanese denied emphatically that the acceptance of such an amendment would endanger the Adriatic irization laws of the United States. Italy was not represented at the plenary session, and in view of the withdrawal of the Italians and the covert threat of the Japanese, there was a keen interest felt over the next steps of the Japanese delegates in the event that their proposals were rejected. The Japanese indicated that they intended to make a strong fight against the article which especially exempted the Monroe Doctrine from the operations of the league. President Wilson is scheduled to address the plenary session.

Washington, April 28.—The revised text of the covenant of the League of Nations was made public by the State Department yesterday. While most of the changes made are minor, yet there are some vital alterations such as the inclusion of recognition of the Monroe Doctrine, demanded above all by critics of the first draft in this country.

The revised text also reveals the fact that forty-five nations, including the colonies of Great Britain, are to be charter members of the league. Thirty two of these nations declared war against or broke relations with Germany. The other thirteen are neutrals who will be invited to join.

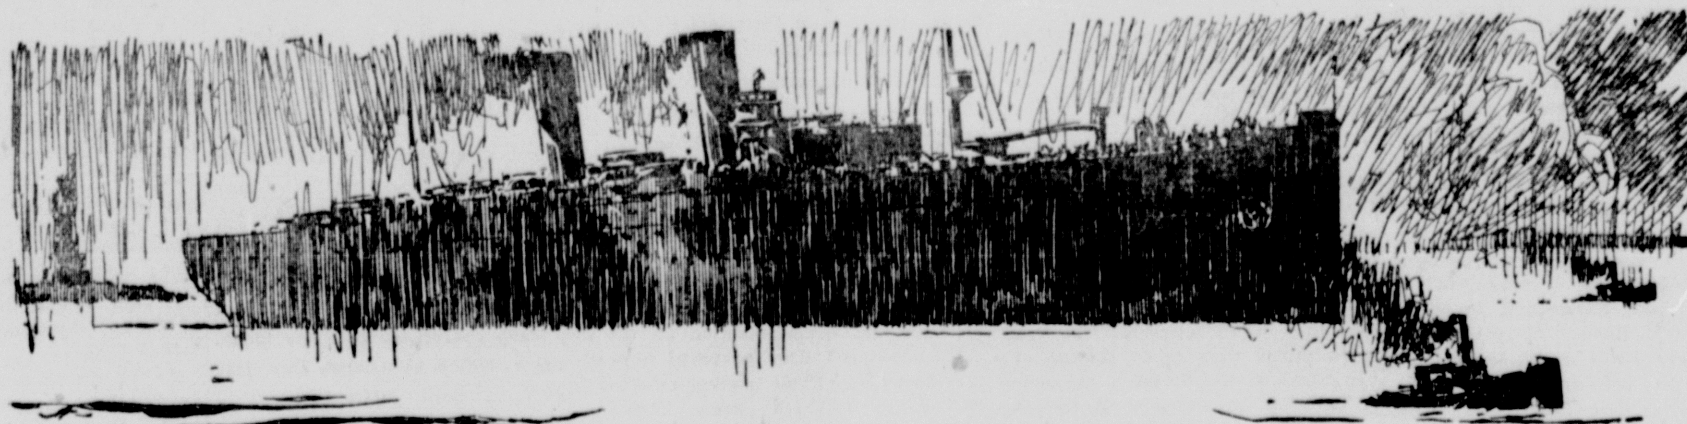

Germany and her late allies are, of course, excluded for the present. So are Mexico and Costa Rica.

President Wilson is to call the first meeting of the league and of the executive council.

The countries not mentioned but which are placed upon probation subject to admission to the league by a two-thirds vote of its members are: Austria, Bulgaria, Costa Rica, Germany, Hungary, Mexico, Russia, Santo Domingo.

Publication of the text discloses that the official summary quoted verbatim from the new article recognizing the Monroe Doctrine. It provides that nothing in the covenant shall be deemed "to affect the validity of international engagements such as treaties of arbitration or regional understandings like the Monroe Doctrine for securing the maintenance of peace."

BRING THEM HOME

Millions of boys went over the foam for you. Hundreds of thousands were in the fight for your liberty. Thousands fell, upholding your cause.

They won. They sacrificed. Some of them died, but they won. They wrote American heroism into the pages of European history, a history already blood-red with heroism.

No greater bravery is recorded than that given to world freedom by American boys. Their work, most of it, is over.

Now, what of your share?

Your duty is before you as plainly as was theirs when their country called. They answered the CALL OF HONOR. The same call is sounding for you today. It demands YOUR ANSWER.

"You have subscribed," did you say?

So much to your credit. The heat of battle was on. The thirsty Hun was at your shores. The money you lent under the impulse of hatred and fear of the foe was money well invested. Except for that investment, you might have lost all to the lust and greed of a conquering horde.

You subscribed, and the nation is grateful for your aid.

But the boys? What of the boys who sacrificed more than you did? What of those who faced the foe, whom you sent to stop the rush upon Paris--and who stopped it?

Is it not worth as much to you to bring your heroes home as it was to send them?

America must welcome its victors to peace and prosperity as eagerly as it wished them God-speed to battle.

Dollars protected by the Yanks who fought must bring the fighters home.

That Empty Corner

The Place for Your NEW EDISON

Right now—as you read this under the lamp—look up from your paper and glance at that empty corner. Plenty of room for a New Edison. Do you realize what it will mean to you? It means that there in that corner will stand stars of Grand Opera, vaudeville favorites, great instrumentalists, quartets, sextets, orchestras; in a word musical artists to suit your every mood—to give you their all. Were they there in the flesh they

could give you no more. Hundreds of Edison tone tests in which the artist sang or played in direct comparison with the New Edison have proved that it is utterly impossible to tell artist from instrumental. If you own a New Edison you'll have in your own home all that the ear can give you of the art of the world's greatest musicians. Decide now to call at our store tomorrow to hear a demonstration.

A REAL ECONOMY

Because of Extra Wear

There is no better judge of shoe wear and comfort than the policeman who is on his feet all day long. W. H. Berry, patrolman in Boston, Mass., says of Neolin-soled shoes: "My shoes with Neolin Soles serve me better than any others I have ever used. They keep my feet dry at all times, and do not slip."

When you buy new shoes, be sure they are Neolin-soled, and you, too, will know a better service from shoes. Moreover, these shoes are a real economy because of the extra wear they give. Most good shoe stores carry them in styles for men, women, and children.

And don't throw away your old shoes. Have them re-soled with Neolin Soles. Remember—these soles are flexible and waterproof, as well as long wearing, and are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

In the Land of the Equal.

A washerwoman's son won the first prize in the national school-children's Victory Loan poster drawing contest, says the Washington Herald.

Among those thousands who drew posters were the sons and daughters of professors, teachers, bankers, lawyers, farmers, mechanics, business men, physicians, artists, editors. Many of them came from homes of the wealthy and he well-to-do.

But the winner live in the little cottage home of an Iowa washerwoman!

Nowhere else than in America could that happen, for this is the land of the equal, the dwelling place of opportunity. Here a rail splitter becomes chief Executive of the nation, a farm boy rises to be the guiding genius of the country's largest banking house, and the teacher of a rural negro school is field commander of all American armies in France.

WANT A YEAR'S PAY FOR ALL

Men Who Were in Service Are Urged to Write Congressmen.

The one year's pay for all who served plan is sweeping the entire country. The movement for which the Soldiers, Sailors and Marines National Weekly News is pledged to fight has already won such a popular endorsement that members of Congress are feeling the pressure.

W. E. Shafer, Jr., of Norfolk, Va., who heads a national organization with the sole purpose of bringing this legislation about, reports sentiment growing to the point where it will become a popular demand by the time Congress convenes.

The one year's pay plan is not new. Mr. Shafer says. It was the first and original plan started to benefit the men in the service. Now several other plans have been started that seem to be only for the purpose of keeping the men from getting twelve months' pay.

This plan was started soon after the armistice was signed.

The purpose was to put a bill through Congress whereby every man of the service, regulars, reserves, etc., shall receive twelve months' extra pay whether they went abroad or not.

Those staying in the service will receive it as well as those being discharged.—Soldiers, Sailors and Marines Weekly.

WOMAN SUFFERED 12 YEARS

Finally Made Well by Taking Lydia E. Pinkham's Vegetable Compound.

Emmitsburg, Md.—“I suffered for twelve or fifteen years, and was treated by a physician, but got little relief. I saw an advertisement of Lydia E. Pinkham's Vegetable Compound in my newspaper, so I thought I would try it, and it did me more good than all the doctor's medicine. I am a farmer's wife and do my housework all the time, and I am better now than I have been for years. I am never without Lydia E. Pinkham's Vegetable Compound in the house and have recommended it to several of my friends. You are perfectly welcome to publish my letter for the good it may do other women.”—Mrs. ETTIE WARREN, Emmitsburg, Md.

Backache and nervousness are symptoms of nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment. Women in this condition should not continue to drag along without help, but profit by Mrs. Warren's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

Increased Use of Alsike Clover. The demand for alsike clover seed this spring has been much greater than formerly, because seed of this clover is cheaper and has a greater covering capacity. Present indications are that the area seeded in 1919 will be so large as to reduce the possible carry over of alsike seed to a minimum. This will mean that the 1920 crop of clover must be grown almost entirely from seed harvested this year.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years. Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

BETTER THAT HOT SPRINGS HE SAYS

Ringle Says All Treatments Failed Until He took Tanlac—Like New Man Now.

Remarkable, in deed, was the statement made recently by Charles Ringel of 319 Washington Street, Peoria, Ill. Mr. Ringel declared that, although he has taken treatment at Hot Springs and used numbers of different medicines during the past eleven years, in his efforts to restore his health a few bottles of Tanlac have done him more good than everything else combined. His statement follows:

“Nothing ever helped me until I got Tanlac and now I'm just like a man made over. My stomach had been in a very bad fix for eleven years or more, and pained me so bad at every meal I would bloat up with gas until was as tight as a drum and just suffer agony. My nerves became all shattered and my health got so poor that I was forced to quit work. No kind of medicine seemed to reach my trouble and I was going down hill fast. I was advised to go to Hot Springs, which I did, but after spending what money I had saved up, I returned home in just as bad shape as when I left, if not worse.

While talking to a good friend one day about my deplorable condition he told me he believed a few bottles of Tanlac would straighten me up. Well, I had little faith in it to help me, but as my friend seemed to know what he was talking about, I decided to take his advice, and to my complete surprise, the first bottle of Tanlac stopped the gas forming on my stomach and put me in shape to where I could eat and enjoy my meals. My food began to digest as it should, my nervousness left me, and I realized I was on the road to rapid recovery. As I continued to take Tanlac my health improved and my strength returned until now I am able to work as well as I ever would in my life. I feel more grateful than I can express for what Tanlac has done for me and now am telling my friends who are suffering to try it. I can't praise it too highly and expect to rely on it for my health as long as I live.”

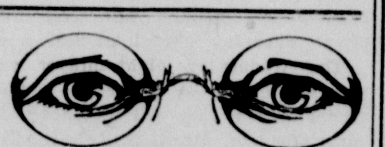

Such statements as the foregoing should appeal very forcibly to the thousands who suffer from the same troubles. Most people who suffer from nervousness, and dizziness, stomach and liver troubles, kidney derangements and who are in a general run-down condition, simply need something to tone up their proper functions. Tanlac is a powerful reconstructive and always produces most gratifying results. Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo., and in Barnard by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley, Ravenwood by C. A. Shunk. —Adv.

SPRING FEVER

Following Colds, Grippe, Thin, Watery or Poisoned Blood.

(By DR. VALENTINE MOTT.)

At this time of year most people suffer from what we term “spring fever” because of a stagnant condition of the blood, because of the toxic poisons stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic is Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

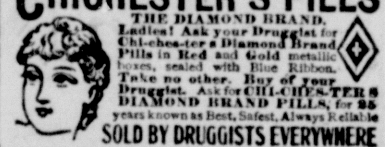

Occasionally one should “clean house” with castor oil or tiny pills made up of the May-apple, leaves of aloe and jalap, and sold by almost all druggists in this country as Doctor Pierce's Pleasant Pellets.

Boulder, Colo.—“About seventeen years ago I was given up by home physicians. I was discouraged, but hearing of Dr. Pierce's wonderful Golden Medical Discovery thought I would give it a trial. I coughed night and day, but after taking the third bottle of the ‘Discovery’ the cough began to cease and I lay down for the first night's sleep in six weeks. I then wrote to Dr. Pierce and took specially prepared medicines for about three months. I also kept taking the ‘Golden Medical Discovery’ during this time and continued for one year. I can safely recommend Dr. Pierce's Golden Medical Discovery to all.”—Mrs. O. J. Adams.

As an introduction to the great Children's Week which is being observed by all Protestant churches throughout the United States during this week, and which has as its object, the bringing of all children under 12 years of age into the Sabbath school, a mass meeting of the various Sunday school workers of Maryville was held yesterday afternoon at the First M. E. Church.

Rev. W. C. Ferguson, Superintendent of Schools J. M. McDonald, Prof. W. J. Osburn and Prof. H. P. Swinehart of the State Normal, and Mrs. L. E. White were among those who gave addresses. The meeting was in charge of Dr. S. A. Colle of the Presbyterian church.

In his address Prof. McDonald brot out the need for efficient teachers in the Sunday school as well as in the day school, and suggested that more care be exercised in the selection of the proper kind of instructors for the Sabbath school. "In the day school," said McDonald, the time devoted to the current education of the child is approximately 30 hours a week. In the Sunday school the teacher has about 30 minutes, and it is obvious that the instructor must be well acquainted with the subject at hand to impart the knowledge to the child.

Prof. Swinehart spoke along the same line and brought out that the education of the child along religious lines is as equally as important as the education he receives in the day school. He brought out that according to the law, the teaching of doctrinal religion is not permitted in the public schools, and that the child must be taught the Scriptures in the Sunday school.

Prof. Osburn advocated a more thorough understanding of the Scriptures by the Sunday school teacher, and suggested that "examinations" be held at frequent intervals to ascertain the knowledge of the instructors in the Sunday school. He spoke of the newer system of graded lessons in the Sunday school, and showed that by this method the child is given instruction along a connected line.

Mrs. White spoke on the "Purposes and Plans for the Children's week" and in her talk spoke of the prime object of the movement, "to place every child under 12 years of age in a Sunday School." She told of the value of propaganda in spreading the work of the Sunday School, and urged every teacher "to keep talking the Sunday School."

A visitation campaign is being put in by the various Sunday School workers today throughout the county, in which efforts are being made to visit the home of every child, and if the youngster is not a member of a Sunday School make efforts to place them in one.

Tomorrow evening a conference of all workers in Nodaway County Sunday Schools will be held at the First Baptist church and representatives from every Sunday School in the county are expected to be present. Miss Harriet Edna Beard, of St. Louis, state Superintendent of the Children's Division will deliver an address and important matter relative to the Sabbath School question will be discussed.

On Thursday night a pageant entitled "The Rights of the Child" will be given at the First Christian church.

A booth has been established in the Robinson building on Main street, and throughout the week all children in this city will be registered here in regard to Sunday School preference, and attendance. A souvenir is being given to each child who registers.

A marriage license was issued today to John Ketter of Conception and Anna Elberger of Conception Junction.

Mr. and Mrs. M. L. Beattie were in St. Joseph Sunday to attend the funeral of Mrs. R. E. Townsend, who died last Friday.

DON'T TRY TO ARGUE WITH BENJAMIN FRANKLIN

Here are a few things he said about finances:

"Money can beget money and its offspring can beget more."

"Always taking out of the meal tub and never putting in soon comes to the bottom."

"Beware of small expenses; a small leak will sink a great ship."

"They know the worth of water when the well is dry."

"He that waits upon fortune is never sure of a dinner. The way to wealth depends upon industry and frugality."

TRADE DOMESTIC DUTIES.

Santa Monica, Cal.—Mr. Husband, How would you like to make your wife's hat while she shingled the roof?

Mrs. Wife, how would you like to wield a hammer and saw while your husband designed your gown?

Impossible? Not at all. Mr. and Mrs. E. H. Stringer of this city say it makes for domestic happiness. They have been married thirteen years and every time Mrs. Stringer needs a new hat or gown Mr. Stringer gets busy and designs and makes it.

And to make things even, Mrs. Stringer recently shingled their house, using twenty-seven bundles of shingles, and painted the interior of the house. She is an expert with the saw and hammer, too.

"We find our unusual and opposite abilities a pleasure," said Mrs. Stringer. "And perhaps there would not be so many divorces if other people were as agreeable," added Mr. Stringer.

AFTER OVERSUBSCRIPTIONS

Communities Which Have Passed Loan Goal Urged to Continue Drive.

Washington, April 28.—Special efforts to obtain oversubscriptions from communities to counterbalance possible under-subscriptions from others will be made this week by Victory Loan committees at the request of the treasury.

After canvassing the financial situation throughout the country, national managers of the loan have decided that vicissitudes of the post-war readjustment period have reduced the ordinary ability of some communities to subscribe the same proportions as in previous loans. For this reason cities, towns and country communities which have not been adversely affected by the cessation of war activities were urged in messages sent today to all loan committees by the treasury to exceed their quota wherever possible.

LEAGUE OF NATIONS BEFORE CONFERENCE

DISCUSSION AS TO WHETHER IT WILL PREVENT FUTURE WAR

JAPS DEMAND EQUALITY

Italy Not Represented at Plenary Session—Pres. Wilson to Make an Address.

Paris, April 28.—Whether the league of nations plan as it is finally amended is acceptable to the nations of the world as a supreme weapon to prevent further war, was the chief problem confronting the plenary session of the peace conference when it assembled here this afternoon. Before the meeting opened the Japanese announced their intention of pressing the amendment to the preamble, declaring for the equality of the member states.

The Japanese denied emphatically that the acceptance of such an amendment would endanger the Adriatic irrigation laws of the United States. Italy was not represented at the plenary session, and in view of the withdrawal of the Italians and the covert threat of the Japanese, there was a keen interest felt over the next steps of the Japanese delegates in the event that their proposals were rejected. The Japanese indicated that they intended to make a strong fight against the article which especially exempted the Monroe Doctrine from the operations of the league. President Wilson is scheduled to address the plenary session.

Washington, April 28.—The revised text of the covenant of the League of Nations was made public by the State Department yesterday. While most of the changes made are minor, yet there are some vital alterations such as the inclusion of recognition of the Monroe Doctrine, demanded above all by critics of the first draft in this country.

The revised text also reveals the fact that forty-five nations, including the colonies of Great Britain, are to be charter members of the league. Thirty two of these nations declared war against or broke relations with Germany. The other thirteen are neutrals who will be invited to join.

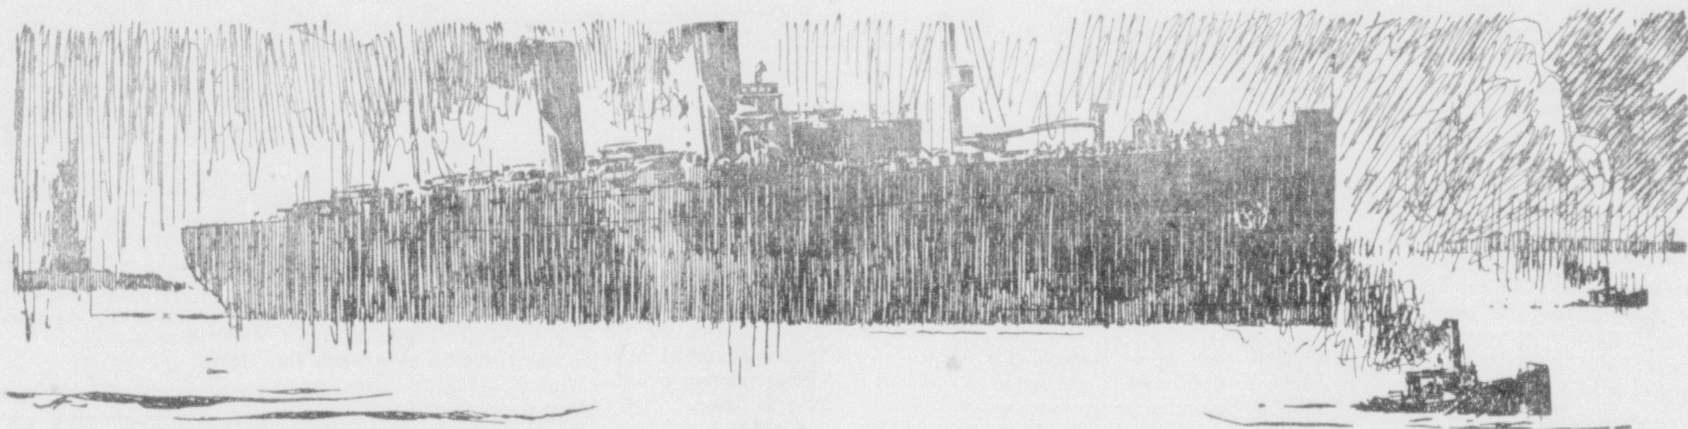

Germany and her late allies are, of course, excluded for the present. So are Mexico and Costa Rica.

President Wilson is to call the first meeting of the league and of the executive council.

The countries not mentioned but which are placed upon probation subject to admission to the league by a two-thirds vote of its members are: Austria, Bulgaria, Costa Rica, Germany, Hungary, Mexico, Russia, Santo Domingo.

Publication of the text discloses that the official summary quoted verbatim the new article recognizing the Monroe Doctrine. It provides that nothing in the covenant shall be deemed "to affect the validity of international engagements such as treaties of arbitration or regional understandings like the Monroe Doctrine for securing the maintenance of peace."

BRING THEM HOME

Millions of boys went over the foam for you. Hundreds of thousands were in the fight for your liberty. Thousands fell, upholding your cause.

They won. They sacrificed. Some of them died, but they won. They wrote American heroism into the pages of European history, a history already blood-red with heroism.

No greater bravery is recorded than that given to world freedom by American boys. Their work, most of it, is over.

Now, what of your share?

Your duty is before you as plainly as was theirs when their country called. They answered the CALL OF HONOR. The same call is sounding for you today. It demands YOUR ANSWER.

"You have subscribed," did you say?

So much to your credit. The heat of battle was on. The thirsty Hun was at your shores. The money you lent under the impulse of hatred and fear of the foe was money well invested. Except for that investment, you might have lost all to the lust and greed of a conquering horde.

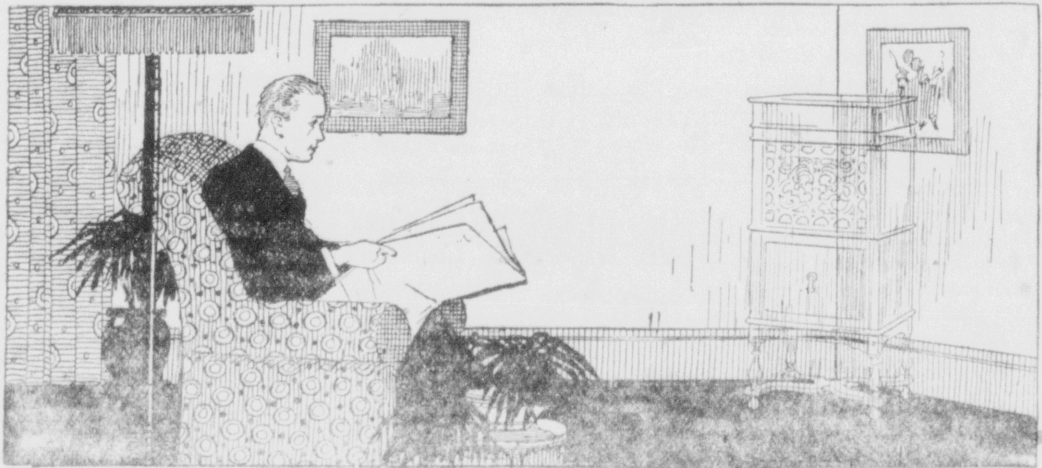

You subscribed, and the nation is grateful for your aid.

But the boys? What of the boys who sacrificed more than you did? What of those who faced the foe, whom you sent to stop the rush upon Paris--and who stopped it?

Is it not worth as much to you to bring your heroes home as it was to send them?

America must welcome its victors to peace and prosperity as eagerly as it wished them God-speed to battle.

Dollars protected by the Yanks who fought must bring the fighters home.

That Empty Corner

The Place for Your NEW EDISON

Right now—as you read this under the lamp—look up from your paper and glance at that empty corner. Plenty of room for a New Edison.

Do you realize what it will mean to you? It means that there in that corner will stand stars of Grand Opera, vaudeville favorites, great instrumentalists, quartets, sextets, orchestras; in a word musical artists to suit your every mood—to give you their all. Were they there in the flesh they

could give you no more.

Hundreds of Edison tone tests in which the artist sang or played in direct comparison with the New Edison have proved that it is utterly impossible to tell artist from instrumental. If you own a New Edison you'll have in your own home all that the ear can give you of the art of the world's greatest musicians. Decide now to call at our store tomorrow to hear a demonstration.

A REAL ECONOMY

Because of Extra Wear

There is no better judge of shoe wear and comfort than the policeman who is on his feet all day long. W. H. Berry, patrolman in Boston, Mass., says of Neolin-soled shoes: "My shoes with Neolin Soles serve me better than any others I have ever used. They keep my feet dry at all times, and do not slip."

When you buy new shoes, be sure they are Neolin-soled, and you, too, will know a better service from shoes. Moreover, these shoes are a real economy because of the extra wear they give. Most good shoe stores carry them in styles for men, women, and children.

And don't throw away your old shoes. Have them re-soled with Neolin Soles. Remember—these soles are flexible and are made by The Good-Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

In the Land of the Equal.

A washerwoman's son won the first prize in the national school-children's Victory Loan poster drawing contest, says the Washington Herald.

Among those thousands who drew posters were the sons and daughters of professors, teachers, bankers, lawyers, farmers, mechanics, business men, physicians, artists, editors. Many of them came from homes of the wealthy and he well-to-do.

But the winner live in the little cottage home of an Iowa washerwoman!

Nowhere else than in America could that happen, for this is the land of the equal, the dwelling place of opportunity. The one year's pay for all who served plan is sweeping the entire country. The movement for which the Soldiers, Sailors and Marines National Weekly News is pledged to fight has already won such a popular indorsement that members of Congress are feeling the pressure.

W. E. Shafer, Jr., of Norfolk, Va., who heads a national organization with the sole purpose of bringing this legislation about, reports sentiment growing to the point where it will become a popular demand by the time Congress convenes.

The one year's pay plan is not new. Mr. Shafer says. It was the first and original plan started to benefit the men in the service. Now several other plans have been started that seem to be only for the purpose of keeping the men from getting twelve months' pay.

This plan was started soon after the armistice was signed.

The purpose was to put a bill through Congress whereby every man of the service, regulars, reserves, etc., shall receive twelve months' extra pay whether they went abroad or not. Those staying in the service will receive it as well as those being discharged.—Soldiers, Sailors and Marines Weekly.

WOMAN SUFFERED 12 YEARS

Lydia E. Pinkham's Veg-

Emmitsburg, Md.—“I suffered for twelve or fifteen years, and was treated by a physician, but got little relief. I saw an advertisement of Lydia E. Pinkham's Vegetable Compound in my newspaper, so thought I would try it, and it did me more good than all the doctor's medicine. I am a farmer's wife and do my housework all the time, and I am better now than I have been for years. I am never without Lydia E. Pinkham's Vegetable Compound in the house and have recommended it to several of my friends. You are perfectly welcome to publish my letter for the good it may do other women.”—Mrs. ETTIE WARREN, Emmitsburg, Md.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment. Women in this condition should not continue to drag along without help, but profit by Mrs. Warren's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

Increased Use of Alsike Clover. The demand for alsike clover seed this spring has been much greater than formerly, because seed of this clover is cheaper and has a greater covering capacity. Present indications are that the area seeded in 1919 will be so large as to reduce the possible carry over of alsike seed to a minimum. This will mean that the 1920 crop of clover must be grown almost entirely from seed harvested this year.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years. Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

BETTER THAT HOT SPRINGS HE SAYS

Ringle Says All Treatments Failed Until He took Tanlac—Like New Man Now.

Remarkable, in deed, was the statement made recently by Charles Ringel of 319 Washington Street, Peoria, Ill. Mr. Ringel declared that, although he has taken treatment at Hot Springs and used numbers of different medicines during the past eleven years, in his efforts to restore his health a few bottles of Tanlac have done him more good than everything else combined. His statement follows:

"Nothing ever helped me until I got Tanlac and now I'm just like a man made over. My stomach had been in a very bad fix for eleven years or more, and pained me so bad at every meal I would bloat up with gas until was as tight as a drum and just suffer agony. My nerves became all shattered and my health got so poor that I was forced to quit work. No kind of medicine seemed to reach my trouble and I was going down hill fast. I was advised to go to Hot Springs, which I did, but after spending what money I had saved up, I returned home in just as bad shape as when I left, if not worse.

While talking to a good friend one day about my deplorable condition he told me he believed a few bottles of Tanlac would straighten me up. Well, I had little faith in it to help me, but as my friend seemed to know what he was talking about, I decided to take his advice, and to my complete surprise, the first bottle of Tanlac stopped the gas forming on my stomach and put me in shape to where I could eat and enjoy my meals. My food began to digest as it should, my nervousness left me, and I realized I was on the road to rapid recovery. As I continued to take Tanlac my health improved and my strength returned until now I am able to work as well as I ever would in my life. I feel more grateful than I can express for what Tanlac has done for me and now am telling my friends who are suffering to try it. I can't praise it too highly and expect to rely on it for my health as long as I live."

Such statements as the foregoing should appeal very forcibly to the thousands who suffer from the same troubles. Most people who suffer from nervousness, and dizziness, stomach and liver troubles, kidney derangements and who are in a general run-down condition, simply need something to tone up their proper functions. Tanlac is a powerful reconstructive and always produces most gratifying results. Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo., and in Barnard by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley, Ravenwood by C. A. Shunk. —Adv.
